Subject: RE: Question

Spoke to Edgar, will call bank, said he got fax confirmation from them that they would take care of it. The other one with the wiring, he will talk to his store manger when he comes in this afternoon about what they will do. So he has both our cell numbers and said he will call back.

Thank you,

Jessica Larson

Subject: Question

Hi,

Do you think during your break or lunch you can call Circuit City in Riverside and talk to the Installation Manager to let him know that the finance charge hit my account last month when he was to extend it out another 6 months along with the other balance on there from the previous exchange? I need it done ASAP so I can actually pay it off in full with no finance charges.

The other thing that he needs to be asked is that the other store (Santa Clarita) is still trying to resolve the problem with the subwoofer which keeps cutting out. This store when relocating the amps to under the front seats from the wall behind the back seat, they velcored them down instead of bolting them done. When I asked why they mentioned the concern that if the previous installer at Riverside (Greg) shorted out my truck and blew fuses when initially installing under the seats that the wires under the seats should be checked for any further damage or any damage. We need to know from Riverside how they want to handle this as I need this checked out by Ford and if they need to file a claim first. If the need the date in which it occurred, it would have been the initial purchase date of the subwoofers back in 12/05.

Please tell him that my husband is talking to corporate today because even Santa Clarita moved and checked wiring yet I've had the subwoofers cut out each time they touched it and it's now going back in to have everything from beginning to end replaced all together this Sunday. But they want to be sure there is no wire damage that is causing any type of short. Please let me know what he says.

There phone number is 951-689-2000

P.S. Please note the name change from Veronica Cook to Veronica Simmons....

Thank you,
Veronica Simmons
